TUANT T. LAM
PRIMARY EXAMINER

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the amendment filed 11/18/2004 has overcome the technical deficiencies and the prior art of record. The prior art of record fails to teach or fairly suggest connection from said body terminal to a back bias control circuit, where said back bias control circuit independently controls the threshold voltage of said transistor to reduce power usage by said circuit, and a connection from said back bias circuit to said output terminal, and there is no connection from said back bias control circuit to a drain terminal as called for in claims 19, 34 and 37. Therefore, claims 19-20, 22-28 and 30-39 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).
